Description	<p>The college had organized a program on "Promoting Gender Equality". The principal addressed the gathering and welcomed all. The students were given talks on Gender Equality.</p> <p>Education is a lifelong process that is vital to India's economic and social progress. Women and men continue to face gender stereotypes and prejudice from preschool to adult education, which can have a significant impact on their educational choices and career paths. Teachers play an important role in promoting gender equity in schools/colleges/universities. Gender equality in and through education necessitates the creation of egalitarian institutions that provide policies, budgets, and plans that allow everyone to succeed, regardless of whether they were born male or female.</p> <p>The coordinator thanked all the students for their active participation.</p>
