## Disabled-friendly washrooms

Disabled-friendly washrooms cater to diverse needs, providing accessible facilities for individuals with disabilities. These washrooms feature amenities such as grab bars, lower sinks, and ample space, ensuring comfort, dignity, and convenience for all users, contributing to an inclusive campus environment.

## Signage including tactile paths, display boards and signposts

Signs are any kind of visual graphics created to display information to a particular audience. This is typically manifested in the form of wayfinding information in places. Signage, including tactile paths, display boards, and signposts, aids navigation for individuals with visual impairments. These features provide clear and accessible information, guiding individuals throughout the campus safely and independently, enhancing accessibility and inclusivity for all members of the community. Signs are any kind of visual graphics created to display information to a particular audience. This is typically manifested in the form of wayfinding information in places.

## Wheel Chair

A wheelchair is a mobilized form of chair using two or more wheels, a footrest and armrest usually cushioned. It is used when walking is difficult or impossible to do due to illnesses, injury, disabilities, or age related health conditions. There are a wide variety of types of wheelchairs, differing by propulsion method, mechanisms of control, and technology used. Some wheelchairs are designed for general everyday use, others for single activities, or to address specific access needs.
